MODERN LIVING IN MIAMI ART DISTRICT

SEE HOW 2C DESIGNS TRANSFORMED AN INDUSTRIAL LOFT INTO A MODERN ABODE

To design the interior to suit the busy lifestyle of a restaurateur and hotelier, first you have to understand your client.

For more than 20 years Miami-based Architect, Carlos Castaneda, has excelled at understanding his clients and creating customized interiors to welcome them home and suit their personal lifestyle. For this client that includes custom furniture, a mixture of natural, concrete and wood surfaces including Carlisle Walnut floors, and wood paneling, plus architectural details that allow for plenty of space for entertaining.

Take a tour of this stunning modern home, as seen in *Dwell Magazine*.
